Listing details

Title:	Distributed Ethernet IO module Modbus TCP module

Description

Price: $ 108.00

Description:
Dual Network Port Distributed IO Modules BL200

Consisting of distributed IO coupler, I/O modules and terminal module.
Among them, the I/O modules can be freely combined according to your needs. It supports up to 32 I/O modules. (notice: more than 20 I/O module need to add a power module)

There are a variety of models to choose from, which can support various Fieldbus protocols. (such as Modbus, MQTT,
OPC UA, Profinet, EtherCAT, BACnet etc.)

It has two RJ45 Ethernet ports that can establish a linear topology without the need for additional switches or hubs.

Fieldbus protocols: Modbus TCP
Max. IO Module: 32
Data transmission medium: EtherNet CAT5
Connection method: 2*RJ45
Transmission rate: 10/100 Mbit/s
Transmission distance: 100m
Logic operation: built-in logic computing function

Max. number of socket links: 15
Electrical isolation: Y

Location

Country:	China
State/Region/Province:	Guangdong
Address:	Qiaotou Community Fuyong street, Baoan
City:	Shenzhen
ZIP code:	518100
