Listing details

Title: BLIIOT ARMxy Series – Make IIoT Easier

Description

Price: \$ 162.68

Description:

Simplify your industrial systems with the ARMxy Series, a flexible and scalable edge computing platform designed for modern IIoT applications.

Scalable Performance

From basic control to advanced computing, powered by Allwinner, Rockchip, TI, NXP, and Raspberry Pi platforms.

AI Ready

Supports 1–6 TOPS AI, scalable up to 40 TOPS for intelligent edge applications.

Rich I/O

Flexible interfaces including RS485, RS232, CAN, DI/DO, AI for seamless industrial connectivity.

Modular Design

X Board + Y Board architecture for fast customization and reduced development time.

Open Ecosystem

Compatible with Linux, Yocto, Docker, and the Raspberry Pi ecosystem for easy development.

Simplified Architecture

Replace traditional PLC + gateway systems with a unified, smarter solution.
