Additional information

Additional Information:
√ Electric Backing Plate √ Trailer Axles √ Trailer Electric Brakes √ For 2500 kg Axle √ Electric Brake Assembly √ 15” – 16” Wheel √ 12 Inch Drum √ Trailer Brake System This 12” x 2” electric brake assembly with handbrake is designed for the trailers, caravans and campers in Australia market, it is operated by a trailer controller and they can provide an ability for the driver to apply the trailer brakes manually. It is used for 15”-16” wheel, and the axle capacity is 2500 kg. Features l 12” x 2” electric brakes with hand/parking brake are very popular in Australia. l E-coated backing plates resist wear and corrosion. l Trailer electric brake assembly with parking brake is more independent and more reliable than the without parking brake version in some circumstances. l This 12 inch electric brake magnet is different from 12” off road electric brake. l Includes brake shoes, magnet, mechanical parking brake lever and backing plate, ready for installation. l High grade brake linings provide smooth efficient braking.
