Reference Number:	RF202439
Title:	Trailer Tandem Axles with Brakes
Price:	0

Additional information

Additional Information:
√ Trailer Double Axle √ Trailer Dual Axles √ Trailer Tandem Axle √ Tandem Axle Trailers √ Leaf Spring Axles √ Trailer Axles and Parts √ Heavy Duty Trailers √ Heavy Duty Axles Trailer tandem axle has two sets of single axles placed in close proximity to each other to help disperse the weight load of the cargo. The extra axle allows the trailer to handle more weight and to be more stable at higher speeds and highway conditions. Although tandem axle costs more money than single axle, the extra upfront cost may be worth it in the long run. Features l More safety and more stable on a long distance towing or at highway speeds. l Level towing is a must for a tandem axle trailer. l Axles come fully assembled, can compatible with most trailer manufacturers' axles. l The leaf spring kit is sold separately. l The blown tyre could possibly be changed without using a jack.
