At Woodish, we believe quality and craftsmanship matter, but with sustainability in mind. All our wooden watches and sunglasses are made of reclaimed and recycled lumber, maple, bamboo, and sandalwood. Allowing us to retain the beauty of these woods, our crafters preserve the natural patterns that have been engrained into each piece; therefore, no two designs are alike.

Woodish embodies the stories of each of our customers. We know just like wood; people have their own narrative to tell. Moments are more influential than seconds and minutes on your watch, so your watch should tell more than just time. Woodish cares about your stories and empowers people to bring each of those stories on all adventures with the option to engrave your wooden watches. Truly making each watch completely unique, down to the feelings and emotions.
