Title: Learn how to do voice overs?

Location

Additional information

Additional Information:

Maybe you've been told what a great voice you have or saw an article about being a voice talent or have a friend who's done it and wondered how you can do it too.

Your voice is the engine that does all the work. If you have a long sentence, there is the danger of running out of breath, and that wouldn't be good. Which is why this course teaches you much more than just acting and performance styles. Mastering Voice-overs, concentrates on the most valuable asset any voice over artist can have—control of your vocal instrument.

Discover the secrets of breathing and voice production that all top-flight professionals use to win their auditions and deliver effortless reads. Get introduced to the magic of ?Day Voice? And the relationship between voice development and career success. And, I'll also teach you how to dramatically improve your phrasing, ace your cold readings and how to sound fresh even on your twenty-second take.
