Additional Information:

Do you have a nagging pain, anywhere in your body?
Then, this information is meant to reach you TODAY!
We can only help you, if you accept our help though!

We realise that each person's pain is located in different areas of your body, so your session is "personalised" according to your body's needs:
- Migraine headache
- Neck tension
- Back ache
- Shoulder ache
- Upper leg ache
- Calve ache
- Foot ache
- Stomach ache
- All of the above!

All you need to do is specify where your pain is and it will be relieved, in your massage session, no need to suffer another day longer!

Medication does not take away your pain completely, it only masks the pain, until it wears off and your persistent pain is back!
This is a massage therapy like no other and our loyal massage guests can attest to that!

Massage therapy can improve health and wellness through its effects on the physical, mental and social

well-being of an individual.
