Title: Further Education and Training Certificate-Environ

Description:

Further Education and Training [Certificate-Environmental Practice](#) - Short Courses Institute

SAQA ID 50309, Level 4, 140 Credits

Purpose of Qualification

This specific purpose of this qualification represents the skills, knowledge and understanding required by competent practitioners to:

- * Apply environmental principles and practices to operations, audits, inspections and assessments, data management and communications, within the regulatory framework.
- * Engage with appropriate stakeholders to implement environmental interventions.
- * Plan and supervise operations and make the best use of resources within their area of responsibility.

What do I become upon completion of the course?

- * Conservationist
- * Environmental management

The Petra Institute of Development training approach is highly interactive. A combination of

presentations is used by the facilitator and by participant(s). The learners have an opportunity for exposure to a variety of methodologies such as group or individual exercises, case studies and role plays. These proven learning techniques enhance understanding and retention of the different focus issues.
