Description

Title:	Roland E-500 Intelligent Keyboard Synthesizer
Price:	ZAR 5,000.00

Description:

Roland E-500 Intelligent Keyboard Synthesizer Workstation with built-in-speakers available in stock.

The E-500 is a 61-note portable consumer keyboard with built-in speakers.
The E-500 can be used as piano, organ, or keyboard i.e. a synthesizer with automatic accompaniment - all at the touch of a button. 270 Tones (sounds) and 111 Styles built in. Support for a wide range of musical genres. Piano Tones rely on stereo sampling.
The Roland E-500 Intelligent Keyboard is a musical instrument that was released by Roland Corporation, a leading manufacturer of electronic musical instruments, in the early 2000s. It is a professional-grade keyboard that is designed for use in live performances and recording studios.

The E-500 features a 61-key velocity-sensitive keyboard that provides a wide range of expressive capabilities. It also includes a range of high-quality sounds, including pianos, organs, strings, brass, and percussion, among others. These sounds can be further customized using the onboard sound editing features.

One of the key features of the E-500 is its intelligent backing system, which provides automatic accompaniment for a wide range of musical styles. This allows musicians to play along with a full band, complete with drums, bass, and other instruments, all controlled from the keyboard.

Other notable features of the E-500 include a large LCD display, a 16-track sequencer, and the ability to connect to a computer for MIDI control and audio recording. It also has a built-in microphone input and effects, making it suitable for use as a performance or recording tool for singers and vocalists.

Overall, the Roland E-500 Intelligent Keyboard is a versatile and powerful musical instrument that is well-suited for use by professional musicians and hobbyists alike.
